PREFACE

The papers in this volume were presented at the 1989 Workshop on Algorithms and Data Structures (WADS '89). The workshop took place from August 17 to August 19, 1989, at Carleton University in Ottawa and was organized by the School of Computer Science at Carleton University (Ottawa, Ont.) in cooperation with the Department of Computer Science at the University of Ottawa (Ottawa, Ont.) and the Department of Computer & Information Science at Queen's University (Kingston, Ont.).

In response to the program committee's call for papers, 117 papers were submitted. From these submissions, the program committee selected 44 for presentation at the workshop. In addition to these papers, the workshop included 6 invited presentations.
