IFIP – The International Federation for Information Processing

IFIP was founded in 1960 under the auspices of UNESCO, following the First World Computer Congress held in Paris the previous year. An umbrella organization for societies working in information processing, IFIP's aim is two-fold: to support information processing within its member countries and to encourage technology transfer to developing nations. As its mission statement clearly states,

IFIP's mission is to be the leading, truly international, apolitical organization which encourages and assists in the development, exploitation and application of information technology for the benefit of all people.

IFIP is a non-profitmaking organization, run almost solely by 2500 volunteers. It operates through a number of technical committees, which organize events and publications. IFIP's events range from an international congress to local seminars, but the most important are:

- The IFIP World Computer Congress, held every second year;
- Open conferences;
- Working conferences.

The flagship event is the IFIP World Computer Congress, at which both invited and contributed papers are presented. Contributed papers are rigorously refereed and the rejection rate is high.

As with the Congress, participation in the open conferences is open to all and papers may be invited or submitted. Again, submitted papers are stringently refereed.

The working conferences are structured differently. They are usually run by a working group and attendance is small and by invitation only. Their purpose is to create an atmosphere conducive to innovation and development. Refereeing is less rigorous and papers are subjected to extensive group discussion.

Publications arising from IFIP events vary. The papers presented at the IFIP World Computer Congress and at open conferences are published as conference proceedings, while the results of the working conferences are often published as collections of selected and edited papers.

Any national society whose primary activity is in information may apply to become a full member of IFIP, although full membership is restricted to one society per country. Full members are entitled to vote at the annual General Assembly. National societies preferring a less committed involvement may apply for associate or corresponding membership. Associate members enjoy the same benefits as full members, but without voting rights. Corresponding members are not represented in IFIP bodies. Affiliated membership is open to non-national societies, and individual and honorary membership schemes are also offered.

IFIP 2008 World Computer Congress (WCC'08)

Message from the Chairs

Every two years, the International Federation for Information Processing hosts a major event which showcases the scientific endeavours of its over one hundred Technical Committees and Working Groups. 2008 sees the 20th World Computer Congress (WCC 2008) take place for the first time in Italy, in Milan from 7-10 September 2008, at the MIC - Milano Convention Centre. The Congress is hosted by the Italian Computer Society, AICA, under the chairmanship of Giulio Occhini.

The Congress runs as a federation of co-located conferences offered by the different IFIP bodies, under the chairmanship of the scientific chair, Judith Bishop. For this Congress, we have a larger than usual number of thirteen conferences, ranging from Theoretical Computer Science, to Open Source Systems, to Entertainment Computing. Some of these are established conferences that run each year and some represent new, breaking areas of computing. Each conference had a call for papers, an International Programme Committee of experts and a thorough peer reviewed process. The Congress received 661 papers for the thirteen conferences, and selected 375 from those representing an acceptance rate of 56% (averaged over all conferences).

An innovative feature of WCC 2008 is the setting aside of two hours each day for cross-sessions relating to the integration of business and research, featuring the use of IT in Italian industry, sport, fashion and so on. This part is organized by Ivo De Lotto. The Congress will be opened by representatives from government bodies and Societies associated with IT in Italy.

This volume is one of fourteen volumes associated with the scientific conferences and the industry sessions. Each covers a specific topic and separately or together they form a valuable record of the state of computing research in the world in 2008. Each volume was prepared for publication in the Springer IFIP Series by the conference's volume editors. The overall Chair for all the volumes published for the Congress is John Impagliazzo.

For full details on the Congress, refer to the webpage <http://www.wcc2008.org>.

WCC 2008 Scientific Conferences

TC12	AI	Artificial Intelligence 2008
TC10	BICC	Biologically Inspired Cooperative Computing
WG 5.4	CAI	Computer-Aided Innovation (Topical Session)
WG 10.2	DIPES	Distributed and Parallel Embedded Systems
TC14	ECS	Entertainment Computing Symposium
TC3	ED_L2L	Learning to Live in the Knowledge Society
WG 9.7	HCE3	History of Computing and Education 3
TC3		
TC13	HCI	Human Computer Interaction
TC8	ISREP	Information Systems Research, Education and Practice
WG 12.6	KMIA	Knowledge Management in Action
TC2	OSS	Open Source Systems
WG 2.13		
TC11	IFIP SEC	Information Security Conference
TC1	TCS	Theoretical Computer Science

IFIP

- is the leading multinational, apolitical organization in Information and Communications Technologies and Sciences
- is recognized by United Nations and other world bodies
- represents IT Societies from 56 countries or regions, covering all 5 continents with a total membership of over half a million
- links more than 3500 scientists from Academia and Industry, organized in more than 101 Working Groups reporting to 13 Technical Committees
- sponsors 100 conferences yearly providing unparalleled coverage from theoretical informatics to the relationship between informatics and society including hardware and software technologies, and networked information systems

Details of the IFIP Technical Committees and Working Groups can be found on the website at <http://www.ifip.org>.

e-Government- Program Committee

Antonino Mazzeo Dip. Informatica e Sistemistica University of Naples Federico II, Italy (Chairman)
Paolo Prinetto, ICT Faculty of the Politecnico di Torino, Italy and University of Illinois at Chicago
Nicola Mazzocca, Dip. Informatica e Sistemistica, University of Naples Federico II, Italy
Gianluigi Benedetti, Ministero delle Riforme e Innovazione nella Pubblica Amministrazione, Italy
Floretta Rollieri, CNIPA Centro Nazionale per l'Informatica nella Pubblica Amministrazione, Italy
Mauro Calise, University of Naples Federico II and International Political Science Association, Italy
Carlo Batini, Dip. Informatica Sistemistica e Comunicazione of Milano Bicocca University, Italy
Mauro Pezzè, Dip. Informatica Sistemistica e Comunicazione of Milano Bicocca University, Italy
Maddalena Sorrentino, Dept. of Economics, Business and Statistics University of Milan, Italy
Derrick de Kerckhove, Dept. of French at the University of Toronto, Canada
Laurence T. Yang, Ph.D. Department of Computer Science, St. Francis Xavier University, Canada
Manish Gupta, Ph.D. CTO, India Systems and Technology Lab, IBM Bangalore, India

ICT Professionalism and Competences - Program Committee

Roberto Bellini, AICA, the Italian Computer Society (Chairman)
Renny Bakke Amundsen, DND, the Norwegian Computer Society
Moirá De Roche, IFIP – I3P, International Professional Practice Programme, South Africa
Marco Ferretti, CINI, Consortium of Italian Universities for IT
Juan Garbajosa, Universidad Politécnica de Madrid, Spain
Roger Johnson, BCS, the British Computer Society, UK
Giulio Occhini, AICA, the Italian Computer Society
Franco Patini, Confindustria, Confederation of Italian Industry
Nello Scarabottolo, CRUI, Italian Universities Chancellors Conference
Niko Schlamberger, CEPIS, Council of European Professional Informatics Societies
Stephen Seidman, IEEE Computer Society
Paolo Schgör, AICA, the Italian Computer Society
Pietro Paolo Trimarchi, Ragioneria Generale dello Stato, Italian Ministry of Finance
Peter Weiss, GI, Gesellschaft für Informatik, Germany

Service Science- Program Committee

Gianmario Motta, Informatics & Systems Dept, University of Pavia
(Chairman)

Robert Benjamin, School of Information Studies, Syracuse University,
