
CREATIVITY AND HCI: FROM EXPERIENCE TO DESIGN IN EDUCATION

IFIP – The International Federation for Information Processing

IFIP was founded in 1960 under the auspices of UNESCO, following the First World Computer Congress held in Paris the previous year. An umbrella organization for societies working in information processing, IFIP's aim is two-fold: to support information processing within its member countries and to encourage technology transfer to developing nations. As its mission statement clearly states,

IFIP's mission is to be the leading, truly international, apolitical organization which encourages and assists in the development, exploitation and application of information technology for the benefit of all people.

IFIP is a non-profitmaking organization, run almost solely by 2500 volunteers. It operates through a number of technical committees, which organize events and publications. IFIP's events range from an international congress to local seminars, but the most important are:

- The IFIP World Computer Congress, held every second year;
- Open conferences;
- Working conferences.

The flagship event is the IFIP World Computer Congress, at which both invited and contributed papers are presented. Contributed papers are rigorously refereed and the rejection rate is high.

As with the Congress, participation in the open conferences is open to all and papers may be invited or submitted. Again, submitted papers are stringently refereed.

The working conferences are structured differently. They are usually run by a working group and attendance is small and by invitation only. Their purpose is to create an atmosphere conducive to innovation and development. Refereeing is less rigorous and papers are subjected to extensive group discussion.

Publications arising from IFIP events vary. The papers presented at the IFIP World Computer Congress and at open conferences are published as conference proceedings, while the results of the working conferences are often published as collections of selected and edited papers.

Any national society whose primary activity is in information may apply to become a full member of IFIP, although full membership is restricted to one society per country. Full members are entitled to vote at the annual General Assembly, National societies preferring a less committed involvement may apply for associate or corresponding membership. Associate members enjoy the same benefits as full members, but without voting rights. Corresponding members are not represented in IFIP bodies. Affiliated membership is open to non-national societies, and individual and honorary membership schemes are also offered.

CREATIVITY AND HCI: FROM EXPERIENCE TO DESIGN IN EDUCATION

*Selected Contributions from HCIEd 2007,
March 29-30, 2007, Aveiro, Portugal*

Table of Contents

Preface - Creativity and HCI: From Experience to Design in Education <i>Paula Kotzé, William Wong, Joaquim Jorge, Alan Dix and Paula Alexandra Silva...</i>	1
From Inventivity in Limerick to Creativity in Aveiro: Lessons Learnt <i>William Wong, Paula Kotzé, Janet Read, Liam Bannon and Ebba Hvannberg</i>	12
Embedding a Design Studio Course in a Conventional Computer Science Program <i>Saul Greenberg.....</i>	23
Designing Design Exercises – From Theory to Creativity and Real-world Use <i>Paula Kotzé and Peter Purgathofer.....</i>	42
Teaching Human-Computer Interaction from Real World Examples – Furnishing Creativity? <i>Lars Oestreicher</i>	60
Teaching Creative Interface Design: Possibilities and Pitfalls <i>Janet Wesson</i>	78
HCI and Design Research Education <i>Bert Bongers and Gerrit van der Veer.....</i>	90
Transdisciplinary Design Approach <i>Tatjana Leblanc.....</i>	106

Reflections on Teaching Human-Computer Interaction to Blind Students
*Teresa Chambel, Pedro Antunes, Carlos Duarte, Luís Carriço, Nuno Guimarães.***123**

Between the Ivory Tower and Babylon – Teaching Interaction Design in the 21st Century
Gerrit C. van der Veer......**143**

Teaching Usability Principles with Patterns and Guidelines Kostas
Koukouletsos, Babak Khazaei, Andy Dearden, Mehmet Ozcan......**159**

Enhancing Creativity in Interaction Design: Alternative Design Brief
Corina Sas and Alan Dix**175**

A Case Study - Hindrances and Success Factors in Student Projects
Marta Kristin Larusdottir.....**189**

Conceptual Design and Prototyping to Explore Creativity
Manuel J. Fonseca, Joaquim A. Jorge, Mário R. Gomes, Daniel Gonçalves and Marco Vala**203**

CRaSh-ing into HCI
Janet C Read, Matthew Horton, Gavin Sim and Emanuela Mazzone**218**
