The Smart Innovation, Systems and Technologies book series encompasses the topics of knowledge, intelligence, innovation and sustainability. The aim of the series is to make available a platform for the publication of books on all aspects of single and multi-disciplinary research on these themes in order to make the latest results available in a readily-accessible form. Volumes on interdisciplinary research combining two or more of these areas is particularly sought.

The series covers systems and paradigms that employ knowledge and intelligence in a broad sense. Its scope is systems having embedded knowledge and intelligence, which may be applied to the solution of world problems in industry, the environment and the community. It also focusses on the knowledge-transfer methodologies and innovation strategies employed to make this happen effectively. The combination of intelligent systems tools and a broad range of applications introduces a need for a synergy of disciplines from science, technology, business and the humanities. The series will include conference proceedings, edited collections, monographs, handbooks, reference books, and other relevant types of book in areas of science and technology where smart systems and technologies can offer innovative solutions.

High quality content is an essential feature for all book proposals accepted for the series. It is expected that editors of all accepted volumes will ensure that contributions are subjected to an appropriate level of reviewing process and adhere to KES quality principles.

Preface

Welcome to the Fourteenth International Conference on Intelligent Information Hiding and Multimedia Signal Processing (IIH-MSP 2018) held in Sendai, Japan, on November 26–28, 2018. IIH-MSP 2018 is hosted by Tohoku University in Japan and technically co-sponsored by Research Institute of Electrical Communication, Tohoku University in Japan, Fujian University of Technology in China, Taiwan Association for Web Intelligence Consortium, Shandong University of Science and Technology in China, IEEE Signal Processing Society Sendai Chapter, Fujian Provincial Key Laboratory of Big Data Mining and Applications (Fujian University of Technology) in China, and Harbin Institute of Technology Shenzhen Graduate School in China. It aims to bring together researchers, engineers, and policymakers to discuss the related techniques, to exchange research ideas, and to make friends.

We received a total of 217 submissions from Asia, Europe, and Oceania over places including Australia, China, India, Japan, Korea, Taiwan, and Thailand. Finally, 85 papers are accepted after the review process. The keynote speech is kindly provided by Dr. Ivan Lee (Senior Lecturer in School of Information Technology and Mathematical Sciences, University of South Australia, Australia), who is one of the leading experts in the related research area, on “Recent Advances in Visual Sensor Systems.”

We would like to thank the authors for their tremendous contributions. We would also like to express our sincere appreciation to the reviewers, Program Committee members, and the Local Committee members for making this conference successful. Finally, we would like to express special thanks for Tohoku University in Japan, Research Institute of Electrical Communication, Fujian University of Technology in China, Taiwan Association for Web Intelligence Consortium, Shandong University of Science and Technology in China, IEEE Signal Processing Society Sendai Chapter, Fujian Provincial Key Laboratory of Big Data Mining and Applications (Fujian University of Technology) in China, and

Harbin Institute of Technology Shenzhen Graduate School in China for their generous support in making IIH-MSP 2018 possible.

Conference Organization

Conference Founders

Jeng-Shyang Pan
Lakhmi C. Jain

Fujian University of Technology, China
University of Canberra, Australia; and University
of Technology Sydney, Australia

Honorary Chairs

Lakhmi C. Jain
Chin-Chen Chang

University of Canberra, Australia; and University
of Technology Sydney, Australia
Feng Chia University, Taiwan

Advisory Committee

Yôiti Suzuki
Bin-Yih Liao

Tohoku University, Japan
National Kaohsiung University of Applied
Sciences, Taiwan

Kebin Jia
Yao Zhao
Ioannis Pitas

Beijing University of Technology, China
Beijing Jiaotong University, China
Aristotle University of Thessaloniki, Greece

General Chairs

Akinori Ito
Jeng-Shyang Pan

Tohoku University, Japan
Fujian University of Technology, China

Program Chairs

Kazuhiro Kondo
Chuan-Yu Chang

Yamagata University, Japan
National Yunlin University of Science
and Technology, Taiwan

Invited Session Chairs

Ching-Yu Yang

National Penghu University of Science
and Technology, Taiwan

Hsiang-Cheh Huang
Xingsi Xue

National University of Kaohsiung, Taiwan
University of Birmingham, UK

Publication Chairs

Chin-Feng Lee
Tsu-Yang Wu
Chien-Ming Chen

Chaoyang University of Technology, Taiwan
Fujian University of Technology, China
Harbin Institute of Technology Shenzhen
Graduate School, China

Pei-Wei Tsai

Swinburne University of Technology, Australia

Electronic Media Chairs

Tien-Wen Sung
Jerry Chun-Wei Lin

Fujian University of Technology, China
Harbin Institute of Technology Shenzhen
Graduate School, China

Finance Chair

Jui-Fang Chang

National Kaohsiung University of Applied
Sciences, Taiwan

Program Committee Members

Naofumi Aoki
Ching-Lung Chang

Hokkaido University, Japan
National Yunlin University of Science
and Technology, Taiwan

Chuan-Yu Chang

National Yunlin University of Science
and Technology, Taiwan

Shu-Chuan Chu

Flinders University, Australia

Yu-Chen Hu

Providence University, Taichung, Taiwan

Akinori Ito

Tohoku University, Japan

Kazuhiro Kondo

Yamagata University, Japan
