Preface

This book and its companion volumes, LNCS vols. 11655 and 11656, constitute the proceedings of the 10th International Conference on Swarm Intelligence (ICSI 2019) held during July 26–30, 2019, in Chiang Mai, Thailand.

The theme of ICSI 2019 was “Serving Life with Intelligence Science.” ICSI 2019 provided an excellent opportunity and/or an academic forum for academics and practitioners to present and discuss the latest scientific results and methods, innovative ideas, and advantages in theories, technologies, and applications in swarm intelligence. The technical program covered most of the aspects of swarm intelligence and its related areas.

ICSI 2019 was the tenth international gathering in the world for researchers working on most of the aspects of swarm intelligence, following successful events in Shanghai (ICSI 2018), Fukuoka (ICSI 2017), Bali (ICSI 2016), Beijing (ICSI-CCI 2015), Hefei (ICSI 2014), Harbin (ICSI 2013), Shenzhen (ICSI 2012), Chongqing (ICSI 2011), and Beijing (ICSI 2010), which provided a high-level academic forum for participants to disseminate their new research findings and discuss emerging areas of research. It also created a stimulating environment for participants to interact and exchange information on future challenges and opportunities in the field of swarm intelligence research. ICSI 2019 was held in conjunction with the 4th International Conference on Data Mining and Big Data (DMBD 2019) held in Chiang Mai, Thailand, for sharing common mutual ideas, promoting transverse fusion, and stimulating innovation.

The ICSI 2019 was held in Chiang Mai, Thailand, which was founded in 1296 as the capital of the ancient Lanna Kingdom, located 700 km north of Bangkok in a verdant valley on the banks of the Ping River. Chiang Mai is a land of misty mountains and colorful hill tribes, a playground for seasoned travelers, a paradise for shoppers, and a delight for adventurers. Chiang Mai can expand visitors’ horizons with Thai massage, cooking courses, variety of handicrafts, and antiques. Despite its relatively small size, Chiang Mai truly has it all. Today it is a place where past and the present seamlessly merge with modern buildings standing side by side with venerable temples.

ICSI 2019 took place at the Duangtawan Hotel in Chiang Mai, Thailand, which is located in the center of Night Bazaar, one of the famous shopping areas in downtown Chiang Mai. Surrounded by a night market where there is an ideal district for shopping, sightseeing, meeting, and commercial business, the hotel is only 15 minutes away from Chiang Mai International Airport, the main railway station, and Chiang Mai bus station. Guests can easily access the weekend walking streets, historical attractions, and traditional temples, while indulging in fascinating northern eateries, original handicrafts, souvenirs, and local entertainment. The hotel offers comfortable and convenient guestrooms overlooking Chiang Mai’s vibrant city view, and a plentiful service of TAI-style restaurants and bars, as well as a complete service of MICE events towards a selection of our function rooms. Guests can enjoy the wide-panoramic view of an outdoor swimming pool, fully-equipped fitness center, and well-being Varea Spa.

ICSI 2019 received 179 submissions and invited submissions from about 429 authors in 30 countries and regions (Algeria, Australia, Austria, Bangladesh, Brazil, China, Colombia, Finland, Germany, Chinese Hong Kong, India, Iraq, Italy, Japan, Malaysia, Mexico, New Zealand, Norway, Portugal, Romania, Russia, Serbia, Singapore, South Africa, Spain, Sweden, Chinese Taiwan, Thailand, United Kingdom, United States of America) across 6 continents (Asia, Europe, North America, South America, Africa, and Oceania). Each submission was reviewed by at least two reviewers, and on average 2.6 reviewers. Based on rigorous reviews by the Program Committee members and reviewers, 82 high-quality papers were selected for publication in this proceedings volume with an acceptance rate of 45.81%. The papers are organized into 13 cohesive sections covering major topics of swarm intelligence research and its development and applications.

On behalf of the Organizing Committee of ICSI 2019, we would like to express our sincere thanks to Peking University, Southern University of Science and Technology, and Mae Fah Luang University for their sponsorship, and to Computational Intelligence Laboratory of Peking University, School of Information Technology of Mae Fah Luang University, and IEEE Beijing Chapter for its technical co-sponsorship, as well as to our supporters of International Neural Network Society, World Federation on Soft Computing, Beijing Xinghui Hi-Tech Co., and Springer Nature.

We would also like to thank the members of the Advisory Committee for their guidance, the members of the international Program Committee and additional reviewers for reviewing the papers, and the members of the Publications Committee for checking the accepted papers in a short period of time. We are particularly grateful to the proceedings publisher Springer for publishing the proceedings in the prestigious series of Lecture Notes in Computer Science. Moreover, we wish to express our heartfelt appreciation to the plenary speakers, session chairs, and student helpers. In addition, there are still many more colleagues, associates, friends, and supporters who helped us in immeasurable ways; we express our sincere gratitude to them all. Last but not the least, we would like to thank all the speakers, authors, and participants for their great contributions that made ICSI 2019 successful and all the hard work worthwhile.

June 2019

Organization

General Co-chairs

Ying Tan	Peking University, China
Russell C. Eberhart	IUPUI, USA

Programme Committee Chair

Yuhui Shi	Southern University of Science and Technology, China
-----------	--

Advisory Committee Chairs

Xingui He	Peking University, China
Gary G. Yen	Oklahoma State University, USA
Benjamin W. Wah	Chinese University of Hong Kong, SAR China

Technical Committee Co-chairs

Haibo He	University of Rhode Island Kingston, USA
Kay Chen Tan	City University of Hong Kong, SAR China
Nikola Kasabov	Auckland University of Technology, New Zealand
Ponnuthurai Nagaratnam	Nanyang Technological University, Singapore
Suganthan	
Xiaodong Li	RMIT University, Australia
Hideyuki Takagi	Kyushu University, Japan
M. Middendorf	University of Leipzig, Germany
Mengjie Zhang	Victoria University of Wellington, New Zealand
Qirong Tang	Tongji University, China

Plenary Session Co-chairs

Andreas Engelbrecht	University of Pretoria, South Africa
Chaoming Luo	University of Mississippi, USA

Invited Session Co-chairs

Andres Iglesias	University of Cantabria, Spain
Haibin Duan	Beihang University, China
Junfeng Chen	Hohai University, China

Special Sessions Chairs

Ben Niu	Shenzhen University, China
Yan Pei	University of Aizu, Japan
Yinan Guo	China University of Mining and Technology, China

Tutorial Co-chairs

Milan Tuba	Singidunum University, Serbia
Junqi Zhang	Tongji University, China
Shi Cheng	Shanxi Normal University, China

Publications Co-chairs

Swagatam Das	Indian Statistical Institute, India
Radu-Emil Precup	Politehnica University of Timisoara, Romania

Publicity Co-chairs

Yew-Soon Ong	Nanyang Technological University, Singapore
Carlos Coello	CINVESTAV-IPN, Mexico
Yaochu Jin	University of Surrey, UK
Rossi Kamal	GERIOT, Bangladesh
Dongbin Zhao	Institute of Automation, CAS, China

Finance and Registration Chairs

Andreas Janecek	University of Vienna, Austria
Suicheng Gu	Google Corporation, USA

Local Arrangement Chair

Tossapon Boongoen	Mae Fah Luang University, Thailand

A Study on Designing an Aperiodic Antenna Array Using Boolean PSO	128
<i>Waroth Kuhirun</i>	
Building Energy Performance Optimization: A New Multi-objective Particle Swarm Method	139
<i>Yong Zhang, Li-juan Yuan, and Shi Cheng</i>	
A Novel PSOEDE Algorithm for Vehicle Scheduling Problem in Public Transportation.	148
<i>Hong Wang, Lulu Zuo, and Xuesen Yang</i>	
Hierarchical Competition Framework for Particle Swarm Optimization.	156
<i>Qidong Chen, Jun Sun, Vasile Palade, Chao Li, Zhongjie Mao, and Hao Wu</i>	
Study on Method of Cutting Trajectory Planning Based on Improved Particle Swarm Optimization for Roadheader	167
<i>Suyu Wang, Dengcheng Ma, Ze Ren, Yuanyuan Qu, and Miao Wu</i>	
Variants and Parameters Investigations of Particle Swarm Optimisation for Solving Course Timetabling Problems	177
<i>Thatchai Thepphakorn and Pupong Pongcharoen</i>	
Ant Colony Optimization	
Multiple Start Modifications of Ant Colony Algorithm for Multiversion Software Design	191
<i>Mikhail V. Saramud, Igor V. Kovalev, Vasiliy V. Losev, and Anna A. Voroshilova</i>	
Ant Colony Algorithm for Cell Tracking Based on Gaussian Cloud Model	202
<i>Mingli Lu, Benlian Xu, Xin Dong, Peiyi Zhu, and Jian Shi</i>	
Physarum-Based Ant Colony Optimization for Graph Coloring Problem	210
<i>Lingyan Lv, Chao Gao, Jianjun Chen, Liang Luo, and Zili Zhang</i>	
Ant Colony Algorithm Based Scheduling with Lot-Sizing for Printed Circuit Board Assembly Shop.	220
<i>Zilong Zhuang, Zizhao Huang, Daili Song, and Wei Qin</i>	

Variable Speed Robot Navigation by an ACO Approach	232
<i>Tingjun Lei, Chaomin Luo, Gene Eu Jan, and Kevin Fung</i>	
Solving Scheduling Problems in PCB Assembly and Its Optimization Using ACO	243
<i>Vijay Pandey, Akshaye Malhotra, Rajeev Kant, and Sudip Kumar Sahana</i>	
Fireworks Algorithms and Brain Storm Optimization	
Accelerating Fireworks Algorithm with Weight-Based Guiding Sparks	257
<i>Yuhao Li, Jun Yu, Hideyuki Takagi, and Ying Tan</i>	
Last-Position Elimination-Based Fireworks Algorithm for Function Optimization	267
<i>JunQi Zhang and WeiZhi Li</i>	
Planar Thinned Antenna Array Synthesis Using Modified Brain Storm Optimization	276
<i>Junfeng Chen, Ninjerdene Bulgan, Xingsi Xue, Xinnan Fan, and Xuewu Zhang</i>
