## **SPECOM 2021 Preface**

The International Conference on Speech and Computer (SPECOM) has become a regular event since the first SPECOM held in St. Petersburg, Russia, in October 1996. SPECOM was established 25 years ago (a of a quarter century!), by the St. Petersburg Institute for Informatics and Automation of the Russian Academy of Sciences (SPIIRAS) and the Herzen State Pedagogical University of Russia, thanks to the efforts of Yuri Kosarev and Rajmund Piotrowski.

SPECOM is a conference with a long tradition that attracts researchers in the area of speech technology, including automatic speech recognition and understanding, text-to-speech synthesis, and speaker and language recognition, as well as related domains like digital speech processing, natural language processing, text analysis, computational paralinguistics, multi-modal speech, and data processing or human-computer interaction. The SPECOM conference is an ideal platform for know-how exchange – especially for experts working on Slavic or other highly inflectional languages – including both under-resourced and regular well-resourced languages.

In its long history, the SPECOM conference was organized alternately by the St. Petersburg Institute for Informatics and Automation of the Russian Academy of Sciences and by the Moscow State Linguistic University (MSLU) in their home towns. Furthermore, in 1997 it was organized by the Cluj-Napoca Subsidiary of the Research Institute for Computer Technique (Romania), in 2005 by the University of Patras (in Patras, Greece), in 2011 by the Kazan Federal University (in Kazan, Russia), in 2013 by the University of West Bohemia (in Pilsen, Czech Republic), in 2014 by the University of Novi Sad (in Novi Sad, Serbia), in 2015 by the University of Patras (in Athens, Greece), in 2016 by the Budapest University of Technology and Economics (in Budapest, Hungary), in 2017 by the University of Hertfordshire (in Hatfield, UK), in 2018 by the Leipzig University of Telecommunications (in Leipzig, Germany), in 2019 by the Boğaziçi University (in Istanbul, Turkey), and in 2020 by SPIIRAS/SPC RAS (fully online).

SPECOM 2021 was the 23rd event in the series, and this time it was organized by the St. Petersburg Federal Research Center of the Russian Academy of Sciences (SPC RAS, which now includes SPIIRAS) in cooperation with MSLU, and held during September 27–30, 2021 in an online format. The conference was sponsored by HUAWEI (Russian Research Center) as a general sponsor, as well as ASM Solutions Ltd. and Alpha Cephei Inc. (Moscow, Russia). SPECOM 2021 was also supported by the International Speech Communication Association (ISCA) and the Saint Petersburg Convention Bureau. Monomax PCO was the official conference service agency.

SPECOM 2021 was held jointly with the 6th International Conference on Interactive Collaborative Robotics (ICR 2021), where problems and modern solutions of human-robot interaction were discussed.

During the SPECOM 2021 and ICR 2021 conferences, keynote lectures were given by Junichi Yamagishi (National Institute of Informatics, Tokyo, Japan) on “Automatic Detection of Generated Voices and Faces: ASVspoof and Deepfake Detection”, by

Mac Schwager (Stanford University, Stanford, USA) on “Enabling Robots to Cooperate and Compete: Distributed Optimization and Game Theoretic Methods for Multiple Interacting Robots”, as well as by researchers of HUAWEI (Russian Research Center).

Due to the ongoing COVID–19 pandemic, for the second time, SPECOM 2021 was organized as a fully virtual conference. The virtual conference, in an online format via Zoom, had a number of advantages including an increased number of participants because listeners could take part without any fees, essentially reduced registration fees for authors of the presented papers, no costs for travel and accommodation, a paperless green conference with only electronic proceedings, free access to video presentations in YouTube after the conference, comfortable home conditions for presenters, etc.

This volume contains a collection of submitted papers presented at SPECOM 2021 which were thoroughly reviewed by members of the Program Committee and additional reviewers consisting of more than 100 famous specialists in the conference topic areas. In total, 74 accepted papers out of 163 papers submitted for SPECOM/ICR were selected by the Program Committee for presentation at the conference and for the inclusion in this book. Theoretical and more general contributions were presented in common plenary sessions. Problem–oriented sessions as well as panel discussions brought together specialists in niche problem areas with the aim of exchanging knowledge and skills resulting from research projects of all kinds.

We would like to express our gratitude to all authors for providing their papers on time, to the members of the Program Committee for their careful reviews and paper selection, and to the editors and correctors for their hard work in preparing this volume. Special thanks are due to the members of the Organizing Committee and Monomax PCO for their tireless effort and enthusiasm during the conference organization.

September 2021

# Organization

The 23rd International Conference on Speech and Computer (SPECOM 2021) was organized by the St. Petersburg Federal Research Center of the Russian Academy of Sciences (SPC RAS, St. Petersburg, Russia) in cooperation with the Moscow State Linguistic University (MSLU, Moscow, Russia). The conference website is: <http://www.specom.nw.ru/2021>.

## General Chairs

Alexey Karpov  
Rodmonga Potapova

SPC RAS, Russia  
MSLU, Russia

## Program Committee

Shyam Agrawal, India  
Tanel Alumäe, Estonia  
Elias Azarov, Belarus  
Peter Birkholz, Germany  
Milana Bojanić, Serbia  
Nick Campbell, Ireland  
Eric Castelli, France  
Josef Chaloupka, Czech Republic  
Khalid Choukri, France  
Vladimir Chuchupal, Russia  
Vlado Delić, Serbia  
Olivier Deroo, France  
Febe De Wet, South Africa  
Anna Esposito, Italy  
Yannick Estève, France  
Vera Evdokimova, Russia  
Mauro Falcone, Italy  
Vasiliki Foufi, Switzerland  
Todor Ganchev, Bulgaria  
Philip Garner, Switzerland  
Gábor Gosztolya, Hungary  
Tunga Gungör, Turkey  
Abualseoud Hanani, Palestine  
Ruediger Hoffmann, Germany  
Marek Hruží, Czech Republic  
Kristiina Jokinen, Japan

Oliver Jokisch, Germany  
Denis Jouvet, France  
Tatiana Kachkovskaia, Russia  
Alexey Karpov, Russia  
Heysem Kaya, The Netherlands  
Tomi Kinnunen, Finland  
Irina Kipyatkova, Russia  
Daniil Kocharov, Russia  
Liliya Komalova, Russia  
Evgeny Kostyuchenko, Russia  
Mikko Kurimo, Finland  
Benjamin Lecouteux, France  
Natalia Loukachevitch, Russia  
Elena Lyakso, Russia  
Joseph Mariani, France  
Konstantin Markov, Japan  
Jindřich Matoušek, Czech Republic  
Yuri Matveev, Russia  
Ivan Medennikov, Russia  
Peter Mihajlik, Hungary  
Nobuaki Minematsu, Japan  
Wolfgang Minker, Germany  
Iosif Mporas, UK  
Ludek Muller, Czech Republic  
Bernd Möbius, Germany  
Sebastian Möller, Germany

Satoshi Nakamura, Japan  
 Géza Németh, Hungary  
 Oliver Niebuhr, Denmark  
 Thomas Niesler, South Africa  
 Sergey Novoselov, Russia  
 Stavros Ntalampiras, Italy  
 Hemant Patil, India  
 Alexey Petrovsky, Russia  
 Nickolay Petrovsky, Belarus  
 Dimitar Popov, Bulgaria  
 Branislav Popović, Serbia  
 Rodmonga Potapova, Russia  
 Vsevolod Potapov, Russia  
 Fabien Ringeval, France  
 Gerhard Rigoll, Germany  
 Paolo Rosso, Spain  
 Leon Rothkrantz, The Netherlands  
 Milan Rusko, Slovakia  
 Sergey Rybin, Russia  
 Sakriani Sakti, Japan  
 Albert Ali Salah, The Netherlands  
 Andrey Savchenko, Russia  
 Maximilian Schmitt, Germany  
 Tanja Schultz, Germany

## Additional Reviewers

Alexandr Axyonov, Russia  
 Denis Dresvyanskiy, Germany  
 Stefan Hillmann, Germany  
 Denis Ivanko, Russia  
 Nikša Jakovljević, Serbia  
 Ildar Kagiroy, Russia  
 Andrey Kuznetsov, Russia  
 Ilya Makarov, Russia  
 Olesia Makhnytkina, Russia  
 Danila Mamontov, Germany  
 Maxim Markitantov, Russia  
 Dragisa Miskovic, Serbia  
 Tijana Nosek, Serbia

Lukáš Pícek, Czech Republic  
 Ana P. Rocha, Portugal  
 Dmitry Ryumin, Russia  
 Petr Salajka, Czech Republic  
 Samuel Silva, Portugal  
 Nikola Simić, Serbia  
 Lubos Smidl, Czech Republic  
 Siniša Suzić, Serbia  
 Ana Rita Valente, Portugal  
 Alena Velichko, Russia  
 Oxana Verkholyak, Russia  
 Alisa Vinogradova, Russia  
 Zbyněk Zajíc, Czech Republic

## Organizing Committee

Alexey Karpov (Chair)  
Andrey Ronzhin  
Rodmonda Potapova  
Daniil Kocharov  
Irina Kipyatkova  
Dmitry Ryumin

Dmitriy Levonevskiy  
Natalia Kashina  
Anastasiya Molotilova  
Irina Novikova  
Natalia Dormidontova  
Denis Ivanko

# Contents

Text-Independent Speaker Verification Employing CNN-LSTM-TDNN Hybrid Networks .....	1
<i>Jahangir Alam, Abderrahim Fathan, and Woo Hyun Kang</i>	
End-to-End Voice Spoofing Detection Employing Time Delay Neural Networks and Higher Order Statistics .....	14
<i>Jahangir Alam, Abderrahim Fathan, and Woo Hyun Kang</i>	
Assessing Velar Gestures Timing in European Portuguese Nasal Vowels with RT-MRI Data .....	26
<i>Nuno Almeida, Conceição Cunha, Samuel Silva, and António Teixeira</i>	
Designing and Deploying an Interaction Modality for Articulatory-Based Audiovisual Speech Synthesis .....	36
<i>Nuno Almeida, Diogo Cunha, Samuel Silva, and António Teixeira</i>	
Kurdish Spoken Dialect Recognition Using X-Vector Speaker Embedding .....	50
<i>Arash Amani, Mohammad Mohammadamini, and Hadi Veisi</i>	
An ASR-Based Tutor for Learning to Read: How to Optimize Feedback to First Graders .....	58
<i>Yu Bai, Cristian Tejedor-García, Ferdy Hubers, Catia Cucchiarini, and Helmer Strik</i>	
Velocity Differences Between Velum Raising and Lowering Movements .....	70
<i>Peter Birkholz and Christian Kleiner</i>	
Pragmatic Markers of Russian Everyday Speech: Invariants in Dialogue and Monologue .....	81
<i>Natalia Bogdanova-Beglarian, Olga Blinova, Tatiana Sherstinova, and Tatiana Sulimova</i>	
Language Adaptation for Speaker Recognition Systems Using Contrastive Learning .....	91
<i>Vincent Brignatz, Jarod Duret, Driss Matrouf, and Mickael Rouvier</i>	
Evaluating X-Vector-Based Speaker Anonymization Under White-Box Assessment .....	100
<i>Pierre Champion, Denis Jouvet, and Anthony Larcher</i>	

Improved Prosodic Clustering for Multispeaker and Speaker-Independent Phoneme-Level Prosody Control .....	112
<i>Myrsini Christidou, Alexandra Vioni, Nikolaos Ellinas, Georgios Vamvoukakis, Konstantinos Markopoulos, Panos Kakoulidis, June Sig Sung, Hyoungmin Park, Aimilios Chalamandaris, and Pirros Tsiakoulis</i>	
Initial Experiments on Question Answering from the Intrinsic Structure of Oral History Archives .....	124
<i>Adam Chýlek, Jan Švec, and Luboš Šmídl</i>	
Imagined, Intended, and Spoken Speech Envelope Synthesis from Neuromagnetic Signals .....	134
<i>Debadatta Dash, Paul Ferrari, Karinne Berstis, and Jun Wang</i>	
What Causes Phonetic Reduction in Russian Speech: New Evidence from Machine Learning Algorithms .....	146
<i>Maria Dayter and Elena Riekhakaynen</i>	
Toxic Comment Classification Service in Social Network .....	157
<i>Mikhail Dolgushin, Dayana Ismakova, Yuliya Bidulya, Igor Krupkin, Galina Barskaya, and Anastasiya Lesiv</i>	
Deep Learning Based Engagement Recognition in Highly Imbalanced Data ....	166
<i>Denis Dresvyanskiy, Wolfgang Minker, and Alexey Karpov</i>	
Intraspeaker Variability of a Professional Lecturer: Ageing, Genre, Pragmatics vs. Voice Acting (Case Study) .....	179
<i>Anna Dunashova</i>	
An Ensemble Approach for the Diagnosis of COVID-19 from Speech and Cough Sounds .....	190
<i>Abderrahim Fathan, Jahangir Alam, and Woo Hyun Kang</i>	
Where Are We in Semantic Concept Extraction for Spoken Language Understanding? .....	202
<i>Sahar Ghannay, Antoine Caubrière, Salima Mdhaffar, Gaëlle Laperrière, Bassam Jabaian, and Yannick Estève</i>	
Learning Mizo Tones from F0 Contours Using 1D-CNN .....	214
<i>Parismita Gogoi, Sishir Kalita, Wendy Lalhminghlui, Priyankoo Sarmah, and S. R. M. Prasanna</i>	

OCR Improvements for Images of Multi-page Historical Documents .....	226
<i>Ivan Gruber, Marek Hruží, Pavel Ircing, Petr Neduchal, Tomáš Zítka, Miroslav Hlaváč, Zbyněk Zajíc, Jan Švec, and Martin Bulín</i>	
X-Bridge: Image-to-Image Translation with Reconstruction Capabilities .....	238
<i>Ivan Gruber, Marek Hruží, Miloš Železný, and Alexey Karpov</i>	
Who is Selling to Whom – Feature Evaluation for Multi-block Classification in Invoice Information Extraction .....	250
<i>Hien Thi Ha and Aleš Horák</i>	
Multimodal Corpus Analysis of Autoblog 2020: Lecture Videos in Machine Learning .....	262
<i>Abner Hernandez and Seung Hee Yang</i>	
Text and Synthetic Data for Domain Adaptation in End-to-End Speech Recognition .....	271
<i>Juan Hussain, Christian Huber, Sebastian Stüker, and Alexander Waibel</i>	
Speaker-Invariant Speech-to-Intent Classification for Low-Resource Languages .....	279
<i>Anosha Ignatius and Uthayasanker Thayasivam</i>	
Speaker-Dependent Visual Command Recognition in Vehicle Cabin: Methodology and Evaluation .....	291
<i>Denis Ivanko, Dmitry Ryumin, Alexandr Axyonov, and Alexey Kashevnik</i>	
Optimised Code-Switched Language Model Data Augmentation in Four Under-Resourced South African Languages .....	303
<i>Joshua Jansen van Vueren and Thomas Niesler</i>	
Synthesis Speech Based Data Augmentation for Low Resource Children ASR .....	317
<i>Virender Kadyan, Hemant Kathania, Prajval Govil, and Mikko Kurimo</i>	
End-to-End Russian Speech Recognition Models with Multi-head Attention ...	327
<i>Irina Kipyatkova</i>	
Word-Level Style Control for Expressive, Non-attentive Speech Synthesis .....	336
<i>Konstantinos Klapsas, Nikolaos Ellinas, June Sig Sung, Hyoungmin Park, and Spyros Raptis</i>	
Perceiving Speech Aggression with and without Textual Context on Twitter Social Network Site .....	348
<i>Liliya Komalova and Diana Kulagina</i>	

Assessing Speaker Interpolation in Neural Text-to-Speech .....	360
<i>Roman Korostik, Javier Latorre, Sivanand Achanta, and Yannis Stylianou</i>	
A Mobile Application for Detection of Amyotrophic Lateral Sclerosis via Voice Analysis .....	372
<i>Denis Likhachov, Maxim Vashkevich, Elias Azarov, Katsiaryna Malhina, and Yuliya Rushkevich</i>	
Child's Emotional Speech Classification by Human Across Two Languages: Russian & Tamil .....	384
<i>Elena Lyakso, Olga Frolova, Nersisson Ruban, and A. Mary Mekala</i>	
Analysis of Dialogues of Typically Developing Children, Children with Down Syndrome and ASD Using Machine Learning Methods .....	397
<i>Olesia Makhnytkina, Aleksey Grigorev, and Aleksander Nikolaev</i>	
Speaker Adaptation with Continuous Vocoder-Based DNN-TTS .....	407
<i>Ali Raheem Mandeel, Mohammed Salah Al-Radhi, and Tamás Gábor Csapó</i>	
Automatic Recognition of the Psychoneurological State of Children: Autism Spectrum Disorders, Down Syndrome, Typical Development .....	417
<i>Yuri Matveev, Anton Matveev, Olga Frolova, and Elena Lyakso</i>	
Study on Acoustic Model Personalization in a Context of Collaborative Learning Constrained by Privacy Preservation .....	426
<i>Salima Mdhaffar, Marc Tommasi, and Yannick Estève</i>	
USC: An Open-Source Uzbek Speech Corpus and Initial Speech Recognition Experiments .....	437
<i>Muhammadjon Musaev, Saida Mussakhojayeva, Ilyos Khujayorov, Yerbolat Khassanov, Mannon Ochilov, and Huseyin Atakan Varol</i>	
A Study of Multilingual End-to-End Speech Recognition for Kazakh, Russian, and English .....	448
<i>Saida Mussakhojayeva, Yerbolat Khassanov, and Huseyin Atakan Varol</i>	
Dialog Speech Sentiment Classification for Imbalanced Datasets .....	460
<i>Sergis Nicolaou, Lambros Mavrides, Georgina Tryfou, Kyriakos Tolias, Konstantinos Panousis, Sotirios Chatzis, and Sergios Theodoridis</i>	
Explicit Control of the Level of Expressiveness in DNN-Based Speech Synthesis by Embedding Interpolation .....	472
<i>Tijana Nosek, Siniša Sužić, Mia Vujović, Darko Pekar, Milan Sečujski, and Vlado Delić</i>	

Experimental Analysis of Expert and Quantitative Estimates of Syllable Recordings in the Process of Speech Rehabilitation .....	483
<i>Dariya Novokhrestova, Evgeny Kostuchenko, Ilya Hodashinsky, and Lidiya Balatskaya</i>	
Methods for Using Class Based N-gram Language Models in the Kaldi Toolkit .....	492
<i>Edvin Pakoci and Branislav Popović</i>	
Spectral Root Features for Replay Spoof Detection in Voice Assistants .....	504
<i>Ankur T. Patil, Harsh Kotta, Rajul Acharya, and Hemant A. Patil</i>	
Influence of the Aggressive Internet Environment on Cognitive Personality Disorders (in Relation to the Russian Young Generation of Users) .....	516
<i>Rodmonga Potapova, Tatyana Agibalova, Vsevolod Potapov, and Olga Tuchina</i>	
Media Content vs Nature Stimuli Influence on Human Brain Activity .....	528
<i>Rodmonga Potapova, Vsevolod Potapov, Nataliya Lebedeva, Ekaterina Karimova, and Nikolay Bobrov</i>	
Can Your Eyes Tell Us Why You Hesitate? Comparing Reading Aloud in Russian as L1 and Japanese as L2 .....	540
<i>Valeriya Prokaeva, Elena Riekhakaynen, and Vladislav Zubov</i>	
Recognition of Heavily Accented and Emotional Speech of English and Czech Holocaust Survivors Using Various DNN Architectures .....	553
<i>Josef V. Psutka, Aleš Pražák, and Jan Vaněk</i>	
Assessing Speaker-Independent Character Information for Acted Voices .....	565
<i>Mathias Quillot, Richard Dufour, and Jean-François Bonastre</i>	
Influence of Speaker Pre-training on Character Voice Representation .....	577
<i>Mathias Quillot, Jarod Duret, Richard Dufour, Mickael Rouvier, and Jean-François Bonastre</i>	
Opinion Classification via Word and Emoji Embedding Models with LSTM ...	589
<i>Ilyos Rabbimov, Sami Kobilov, and Iosif Mporas</i>	
An Equal Data Setting for Attention-Based Encoder-Decoder and HMM/DNN Models: A Case Study in Finnish ASR .....	602
<i>Aku Rouhe, Astrid Van Camp, Mittul Singh, Hugo Van Hamme, and Mikko Kurimo</i>	

Speaker-Aware Training of Speech Emotion Classifier with Speaker Recognition .....	614
<i>Lyudmila Savchenko and Andrey V. Savchenko</i>	
Neural Network Recognition of Russian Noun and Adjective Cases in the Google Books Ngram Corpus .....	626
<i>Andrey V. Savinkov, Vladimir V. Bochkarev, Anna V. Shevlyakova, and Stanislav V. Khristoforov</i>	
Is It a Filler or a Pause? A Quantitative Analysis of Filled Pauses in Hebrew ...	638
<i>Vered Silber-Varod, Mária Gósy, and Anat Lerner</i>	
Modified Group Delay Function Using Different Spectral Smoothing Techniques for Voice Liveness Detection .....	649
<i>Shrishti Singh, Kuldeep Khoría, and Hemant A. Patil</i>	
Complex Rhythm Adjustments in Multilingual Code-Switching Across Mandarin, English and Russian .....	660
<i>Tatiana Sokoreva, Tatiana Shevchenko, and Mariya Chyrvonaya</i>	
Increasing the Precision of Dysarthric Speech Intelligibility and Severity Level Estimate .....	670
<i>Mohammad Soleymanpour, Michael T. Johnson, and Jeffrey Berry</i>	
Articulation During Voice Disguise: A Pilot Study .....	680
<i>Lauri Tavi, Tomi Kinnunen, Einar Meister, Rosa González-Hautamäki, and Anton Malmi</i>	
Improvement of Speaker Number Estimation by Applying an Overlapped Speech Detector .....	692
<i>Elena Timofeeva, Elena Evseeva, Valeriia Zaluskaia, Vlada Kapranova, Sergei Astapov, and Vladimir Kabarov</i>	
Mind Your Tweet: Abusive Tweet Detection .....	704
<i>Paras Tiwari and Sawan Rai</i>	
Speaker Authorization for Air Traffic Control Security .....	716
