Preface

This volume contains a selection of the papers presented at the 12th International Baltic Conference on Databases and Information Systems 2016 (DB&IS 2016). The conference was held during July 4–6, 2016, in Riga, Latvia. DB&IS 2016 continued the DB&IS series of biennial conferences, which have been held in Trakai (1994), Tallinn (1996, 2002, 2008, 2014), Riga (1998, 2004, 2010), and Vilnius (2000, 2006, 2012).

During this period, the DB&IS conference has become an international forum for researchers and developers in the field of databases, information systems, and related areas. The conference features original research and application papers on the theory, design, and implementation of today's information systems on a set of themes and issues.

The volume of *Communications in Computer and Information Science* series by Springer marks a new step for the conference. Having the proceedings published by Springer has raised the bar for our authors and will contribute to our on-going aim of improving the quality of the event.

DB&IS 2016 was organized by the Faculty of Computing, University of Latvia. The international Program Committee had 56 representatives from 21 countries all over the world. This year, 62 submissions from 16 countries were received. At least three reviewers evaluated each conference paper applying the single-blind type of peer review. As a result, 25 papers were accepted as full papers for publication in the present volume. The conference program was extended with several good talks, and additional papers were accepted for publication by the *Baltic Journal of Modern Computing* (BJMC). The conference was also accompanied by a doctoral consortium.

The selected papers span a wide spectrum of topics related to the development of information systems and data processing. The first significant topic covered is the development of ontology applications. The contributions address research on ontology visualization, ad hoc querying using controlled natural language, data mapping from one representation to another, as well as creating and exploiting concept maps in teaching and learning. The second topic is traditional for the DB&IS conferences — tools, technologies, and languages for model-driven development. There are papers that describe different kinds of models, metamodels, model transformations, tools for model-driven development, and business process modeling. The third group of papers addresses issues related to decision support systems and data mining, starting from specific novel techniques and finishing with domain-oriented systems that discover knowledge and improve human life. Natural language processing and building linguistic components for information systems are a rapidly developing research area promising to lead to excellent practical outcomes. This volume includes papers that deal with natural language processing and propose different usage of results. The other papers are related to advanced systems and technologies such as self-management of IS, the semantic-driven design of IS, human–computer interaction, improvement of IS performance, automatic usability evaluation, model-driven testing of real-time

distributed systems, development of adaptive e-learning systems, and knowledge management performance measurement.

We would like to express our warmest thanks to all authors who contributed to the 12th International Baltic Conference on Databases and Information Systems 2016. Our special thanks to the invited speakers, Prof. Andris Ambainis, Prof. Gintautas Dze-myda, and Prof. Jaak Vilo, for sharing their knowledge. We are very grateful to the members of the international Program Committee and additional referees for their reviews and comments. We are grateful to the presenters, session chairs, and conference participants for their time and effort that made the DB&IS 2016 success. We also wish to express our thanks to the conference organizing team, the University of Latvia, Exigen Services Latvia, the IEEE, the IEEE Latvia Section, and other supporters for their contribution and making the event possible. Last, but not least, we would like to thank Springer for their excellent cooperation during the publication of this volume.

Organization

The 12th International Baltic Conference on Databases and Information Systems (DB&IS 2016) took place during July 4–6, 2016 in Riga, Latvia, and was organized by the Faculty of Computing, University of Latvia.

General Chair

Juris Borzovs University of Latvia, Latvia

Honorary Co-chairs

Janis A. Bubenko Royal Institute of Technology and Stockholm University,
Sweden

Arne Sølvberg Norwegian University of Science and Technology,
Norway

Program Co-chairs

Guntis Arnicans University of Latvia, Latvia

Laila Niedrite University of Latvia, Latvia

Organizing Chair

Vineta Arnicane University of Latvia, Latvia

Finances Chair

Visvaldis Neimanis University of Latvia, Latvia

Publicity Chair

Jelena Poljakova University of Latvia, Latvia

Information and Registration Chair

Darja Solodovņikova University of Latvia, Latvia

Infrastructure Chair

Inga Medvedis University of Latvia, Latvia

Steering Committee

Guntis Arnicans	University of Latvia, Latvia
Juris Borzovs	University of Latvia, Latvia
Albertas Čaplinskas	Vilnius University Institute of Mathematics and Informatics, Lithuania
Jānis Grundspenķis	Riga Technical University, Latvia
Hele-Mai Haav	Institute of Cybernetics at Tallinn University of Technology, Estonia
Ahto Kalja	Tallinn University of Technology, Estonia
Mārīte Kirikova	Riga Technical University, Latvia
Audronē Lupeikienē	Vilnius University Institute of Mathematics and Informatics, Lithuania
Tarmo Robal	Tallinn University of Technology, Estonia
Olegas Vasilecas	Vilnius Gediminas Technical University, Lithuania

Program Committee

Guntis Arnicans	University of Latvia, Latvia (Co-chair)
Irina Astrova	Tallinn University of Technology, Estonia
Mikhail Auguston	Naval Postgraduate School, USA
Liz Bacon	CMS, Greenwich University, UK
Jānis Bārzdiņš	University of Latvia, Latvia
Andras Benczur	Eötvös Loránd University, Hungary
Jānis Bičevskis	University of Latvia, Latvia
Uldis Bojārs	University of Latvia, Latvia
Juris Borzovs	University of Latvia, Latvia
Christine Choppy	LIPN of the University of Paris 13, France
Albertas Čaplinskas	Vilnius University, Lithuania
Kārlis Čerāns	University of Latvia, Latvia
Valentina Dagienė	Vilnius University, Lithuania
Robertas Damaševičius	Kaunas University of Technology, Lithuania
Gintautas Dzemyda	Vilnius University, Lithuania
Dale Dzemydiene	Mykolas Romeris University, Lithuania
Vladislav V. Fomin	Vytautas Magnus University, Lithuania
Olga Fragou	Computer Technology Institute, Greece
Flavius Frasincar	Erasmus University Rotterdam, The Netherlands
Jānis Grundspenķis	Riga Technical University, Latvia
Hele-Mai Haav	Tallinn University of Technology, Estonia
Andreas Harth	AIFB, Karlsruhe Institute of Technology, Germany
Mirjana Ivanovic	University of Novi Sad, Serbia
Hannu Jaakkola	Tampere University of Technology, Finland
Ahto Kalja	Tallinn University of Technology, Estonia
Audris Kalniņš	University of Latvia, Latvia
Mārīte Kirikova	Riga Technical University, Latvia

Dmitry Korzun	Petrozavodsk State University, Russia
Dalia Kriksciuniene	Vilnius University, Lithuania
Peep Küngas	University of Tartu, Estonia
Rein Kuusik	Tallinn University of Technology, Estonia
Mart Laanpere	Tallinn University, Estonia
Marion Lepmets	Regulated Software Research Centre, Dundalk Institute of Technology, Ireland
Audrone Lupeikienė	Vilnius University, Lithuania
Timo Mäkinen	Tampere University of Technology, Finland
Saulius Maskeliunas	Vilnius University, Lithuania
Raimundas Matulevičius	University of Tartu, Estonia
Jurijs Merkurjevs	Riga Technical University, Latvia
Emma Chávez Mora	The Catholic University of the Most Holy Conception, Chile
Nazmun Nahar	University of Jyväskylä, Finland
Laila Niedrite	University of Latvia, Latvia (Co-chair)
Boris Novikov	St.-Petersburg University, Russia
Vladimir A. Oleshchuk	University of Agder, Norway
Algirdas Pakštas	London Metropolitan University, UK
Jaan Penjam	Institute of Cybernetics, Estonia
Ivan I. Piletski	Belarusian State University of Informatics and Radioelectronics, The Republic of Belarus
Jaroslav Pokorný	Charles University in Prague, Czech Republic
Tarmo Robal	Tallinn University of Technology, Estonia
Gunter Saake	University of Magdeburg, Germany
Jurgis Škilters	University of Latvia, Latvia
Julius Štuller	Academy of Sciences of the Czech Republic, Czech Republic
Kuldar Taveter	Tallinn University of Technology, Estonia
Jaak Tepandi	Tallinn University of Technology, Estonia
Olegas Vasilecas	Vilnius Gediminas Technical University, Lithuania
Tatjana Welzer	University of Maribor, Slovenia
Robert Wrembel	Poznan University of Technology, Institute of Computing Science, Poland

Doctoral Consortium Co-chairs

Uldis Bojārs	University of Latvia, Latvia
Audronė Lupeikienė	Vilnius University, Lithuania
Raimundas Matulevičius	University of Tartu, Estonia

Additional Reviewers

Yury Chizhov	Riga Technical University, Latvia
Arnis Kiršners	Riga Technical University, Latvia
Arnis Lektavers	Riga Technical University, Latvia

Jevgeni Marenkov	Tallinn University of Technology, Estonia
Robertas Matusa	Vytautas Magnus University, Lithuania
Alex Norton	Tallinn University of Technology, Estonia
Enn Õunapuu	Tallinn University of Technology, Estonia
Petri Rantanen	Tampere University of Technology, Finland
Eeli Saarinen	Turku University, Finland
Jose Ignacio Abreu Salas	The Catholic University of the Most Holy Conception, Chile
Uldis Straujums	University of Latvia, Latvia
Ermo Täks	Tallinn Technical University, Estonia

Local Organizing Committee

Ella Arša	University of Latvia, Latvia
Mārtiņš Balodis	University of Latvia, Latvia
Ingrīda Cinkmane	University of Latvia, Latvia
Rudīte Ekmāne	University of Latvia, Latvia
Anita Ermuša	University of Latvia, Latvia
Natālija Kozmina	University of Latvia, Latvia
Dace Mileika	University of Latvia, Latvia
Inga Medvedis	University of Latvia, Latvia
Rihards Rūmnies	University of Latvia, Latvia
Darja Solodovņikova	University of Latvia, Latvia
Ārija Sprōģe	University of Latvia, Latvia
Arnis Voītkāns	University of Latvia, Latvia

Contents

Ontology, Conceptual Modeling and Databases

Towards Self-explanatory Ontology Visualization with Contextual Verbalization	3
<i>Renārs Liepiņš, Uldis Bojārs, Normunds Grūzītis, Kārlis Čerāns, and Edgars Celms</i>	
Self-service Ad-hoc Querying Using Controlled Natural Language	18
<i>Janis Barzdins, Mikus Grasmanis, Edgars Rencis, Agris Sostaks, and Juris Barzdins</i>	
Database to Ontology Mapping Patterns in RDB2OWL Lite.	35
<i>Kārlis Čerāns and Guntars Būmans</i>	

Tools, Technologies and Languages for Model-Driven Development

Models and Model Transformations Within Web Applications	53
<i>Sergejs Kozlovics</i>	
Metamodel Specialization for DSL Tool Building	68
<i>Audris Kalnins and Janis Barzdins</i>	
Models of Event Driven Systems	83
<i>Zane Bicevska, Janis Bicevskis, and Girts Karnītis</i>	
DSML Tool Building Platform in WEB.	99
<i>Arturs Sprogis</i>	

Decision Support Systems and Data Mining

Algorithms for Extracting Mental Activity Phases from Heart Beat Rate Streams	113
<i>Alina Dubatovka, Elena Mikhailova, Mikhail Zotov, and Boris Novikov</i>	
Scheduling Approach for Enhancing Quality of Service in Real-Time DBMS	126
<i>Fehima Achour, Emna Bouazizi, and Wassim Jaziri</i>	
A Comparative Analysis of Algorithms for Mining Frequent Itemsets	136
<i>Vyacheslav Busarov, Natalia Grafeeva, and Elena Mikhailova</i>	

A WebGIS Application for Cloud Storm Monitoring	151
<i>Stavros Kolios, Dimitrios Loukadakis, Chrysostomos Stylios, Andreas Kazantzidis, and Aleksandr Petunin</i>	

Advanced Systems and Technologies

Self-management of Information Systems	167
<i>Janis Bicevskis, Zane Bicevska, and Ivo Oditis</i>	
On the Smart Spaces Approach to Semantic-Driven Design of Service-Oriented Information Systems	181
<i>Dmitry Korzun</i>	
Host Side Caching: Solutions and Opportunities	196
<i>Shahram Ghandeharizadeh, Jai Menon, Gary Kotzur, Sujoy Sen, and Gaurav Chawla</i>	
Conclusions from the Evaluation of Virtual Machine Based High Resolution Display Wall System	211
<i>Rudolfs Bundulis and Guntis Arnicans</i>	

Business Process Modeling and Performance Measurement

The Enterprise Model Frame for Supporting Security Requirement Elicitation from Business Processes	229
<i>Marite Kirikova, Raimundas Matulevičius, and Kurt Sandkuhl</i>	
Knowledge Management Performance Measurement: A Generic Framework	242
<i>Latifa Oufkir, Mounia Fredj, and Ismail Kassou</i>	

Software Testing and Quality Assurance

A Study on Immediate Automatic Usability Evaluation of Web Application User Interfaces	257
<i>Jevgeni Marenkov, Tarmo Robal, and Ahto Kalja</i>	
Model-Based Testing of Real-Time Distributed Systems	272
<i>Jüri Vain, Evelin Halling, Gert Kanter, Aivo Anier, and Deepak Pal</i>	

Linguistic Components of IS

Detection of Multiple Implicit Features per Sentence in Consumer Review Data.	289
<i>Nikoleta Dosoula, Roel Griep, Rick den Ridder, Rick Slangen, Kim Schouten, and Flavius Frasincar</i>	

K-Translate - Interactive Multi-system Machine Translation	304
<i>Matīss Rīkters</i>	
Web News Sentence Searching Using Linguistic Graph Similarity.	319
<i>Kim Schouten and Flavius Frasincar</i>	
Information Technology in Teaching and Learning	
Heuristic Method to Improve Systematic Collection of Terminology	337
<i>Vineta Arnicane, Guntis Arnicans, and Juris Borzovs</i>	
The Application of Optimal Topic Sequence in Adaptive e-Learning Systems.	352
<i>Vija Vagale and Laila Niedrite</i>	
Initial Steps Towards the Development of Formal Method for Evaluation of Concept Map Complexity from the Systems Viewpoint	366
<i>Janis Grundspenkis</i>	
Author Index	381
