Foreword

Future-generation information technology is an area that attracts many academics and industry professionals. The goal of the FGIT conference is to bring together researchers from academia and industry as well as practitioners to share ideas, problems, and solutions relating to the multifaceted aspects of this field.

We would like to express our gratitude to all of the authors of submitted papers and to all attendees for their contributions and participation.

We acknowledge the great effort of all the Chairs and the members of the Advisory Boards and Program Committees of the above-listed event. Special thanks go to SERSC (Science & Engineering Research Support Society) for supporting this conference.

We are grateful in particular to the following speakers who kindly accepted our invitation and, in this way, helped to meet the objectives of the conference: Zita Maria Almeida do Vale, Hai Jin, Goreti Marreiros, Alfredo Cuzzocrea and Osvaldo Gervasi.

We wish to express our special thanks to Yvette E. Gelogo for helping with the editing of this volume.

December 2012 Chairs of FGIT 2012

Preface

We would like to welcome you to the proceedings of the 4th International Mega-Conference on Future Generation Information Technology (FGIT 2012), which was held during December 16–19, 2012, at the Korea Woman Training Center, Kangwondo, Korea.

FGIT 2012 provided a chance for academics and industry professionals to discuss recent progress in related areas. We expect that the conference and its publications will be a trigger for further research and technology improvements in this important field. We would like to acknowledge the great effort of all the Chairs and members of the Program Committee.

We would like to express our gratitude to all of the authors of submitted papers and to all attendees for their contributions and participation. We believe in the need for continuing this undertaking in the future.

Once more, we would like to thank all the organizations and individuals who supported this event and helped in the success of FGIT 2012
