In the original version of this article, the image associated with Fig. 9 was missing, as it was misplaced with a duplicate image of Fig 8. The associated text, interpretation and caption of the figure were correct, but the image did not show the graph associated with the caption. The correct image associated with Fig. 9 should be the following:

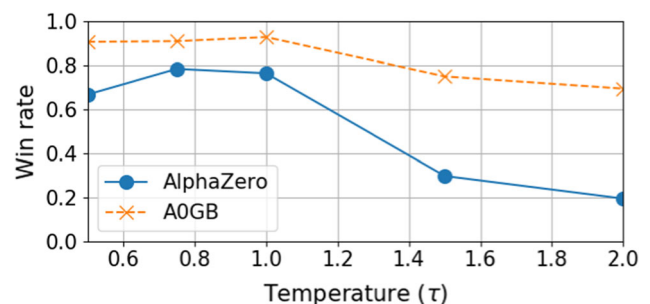

Fig. 9 Performance of AlphaZero with 100 simulations after training for 25000 games on Connect-Four for different values of the temperature coefficient τ during training. In the final evaluation, the moves are selected greedily
