### Publisher Correction to: Mathematical Programming

In the original publication of the article, part of the equation in Sect. 8.1 was not updated during the pagination process due to a mistake by the production team. The publishers apologize for the error.

The correct representation of  $q(x, y, u, v)$  should be:

$$q(x, y, u, v) \triangleq c_2 \langle x|x \rangle + c_3 \langle y|y \rangle + c_4 \langle u|u \rangle + c_5 \langle v|v \rangle + c_6 \langle x|y \rangle + c_7 \langle x|u \rangle \\ + c_8 \langle x|v \rangle + c_9 \langle y|u \rangle + c_{10} \langle y|v \rangle + c_{11} \langle u|v \rangle + c_{12},$$

The original article has been corrected.
