Correction to: Constraints (2022) 27:381–413

<https://doi.org/10.1007/s10601-022-09329-w>

The original version of this article contained a mistake. The main results of the article remains unchanged, but we misinterpreted a figure. The mistake is on the analysis of Fig. 6a, the figure itself is correct, but we did not analyze it correctly. To correct the mistake, we propose the following modification. The sentence in page 407:

“We see from Fig. 6a that the propagation improves the running time (more points are above the $x=y$ line than under).”

Should be replaced by.

“We can see from Fig. 6a that the propagation step slightly worsens the running time. However, it reduces the size of the table, and we noticed that without it, Java `OutOfMemoryError` errors were thrown in some instances, mostly when using the dichotomic variant without the propagation (as many tables are added at once).”

The original article has been corrected.
