Erratum to: Int J Comput Vis (2010) 90: 313–330 DOI 10.1007/s11263-010-0365-3

Section 2 states that: “The original chamfer matching method and some extensions (Barrow et al. 1977; Bordefors 1988; Gavrila 2000) do not make use of edge orientation information. Thayananthan et al. (2003) pointed out that the discriminative power of the cost function can be enhanced by exploiting edge orientation cues of the pre-distance image.”

This does not accurately reflect the contribution of Gavrila, and should read: “The original chamfer matching method and some extensions (Barrow et al. 1977; Bordefors

1988) do not make use of edge orientation information. Gavrila (1998, 2000) exploited edge orientation cues for chamfer matching. Thayananthan et al. (2003) pointed out that the discriminative power of the cost function can be enhanced by exploiting edge orientation cues of the pre-distance image.”
