**CORRECTION**

# Correction to: Bound smoothing based time series anomaly detection using multiple similarity measures

Wenqing Wang[1] · Junpeng Bao[1] · Tao Li[1]

## Correction to:
### Journal of Intelligent Manufacturing
### https://doi.org/10.1007/s10845-020-01583-0

After publication, the authors realized that they failed to z-normalize the subsequences for BFDD, making it perform much worse than a correct implementation, such as detection on xmitdb_1108_2. Please download the correct BFDD code on the webpage "https://www.cs.ucr.edu/~eamonn/MatrixProfile.html".

The authors appreciate Professor Keogh's comments on the shortcomings of our results and his contributions to time series mining and benchmark data sets.

**Publisher's Note** Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
