This is a correction to the letter “Response to the comments of Turki et al. on “The journals that publish Nobel Prize research”” (Bjørk 2020), which failed to provide the full reference to the Turki et al. letter “Facts to consider when analyzing the references of Nobel Prize scientific background” (Turki et al. 2020). The reason for this was that the DOI was not available at the time of submission of the said letter.

The full reference to the Turki et al. letter is as cited above, i.e. Ref. Turki et al. (2020).
