CORRECTION

Correction to: Four problems of the *h*-index for assessing the research productivity and impact of individual authors

Henry H. Bi[1]

Published online: 14 July 2022

Correction to: Scientometrics https://doi.org/10.1007/s11192-022-04323-8

The original version of the article was published with minor corrections in Table 4, references and in a sentence. These have been corrected with this Correction as below:

In page 6, subsection "Solving the four problems", the first sentence should read as "The aforementioned four problems can be effectively addressed by using the *hi*-index: The *hi*-index prevents each author from taking full credit for a multiauthored publication's all contributions (Problem #1)."

See Table 4 below.

The original article can be found online at https://doi.org/10.1007/s11192-022-04323-8.
