Correction to: Flow structures of a precessing jet in an axisymmetric chamber

Correction to: J Vis
https://doi.org/10.1007/s12650-020-00722-2

In the original paper (Fu et al. 2021), we made a mistake on the determination of the bulk inflow velocity U_0. $U_0 \approx 1.12$ m/s instead of 0.60 m/s in the original paper. Thus, all the normalizations with respect to U_0 in the related figures and texts should be corrected. The Reynolds number reported in the original paper should be corrected to 4.5×10^4, and the two Strouhal numbers, St $\approx 7.4 \times 10^{-3}$ and St $\approx 6.0 \times 10^{-3}$ reported in the article, should be revised to St $\approx 4.0 \times 10^{-3}$ and St $\approx 3.2 \times 10^{-3}$, respectively. The contour legends and the abscissas of the related figures in which the normalization with respect to U_0 was used should be scaled accordingly. We confirm that these corrections do not affect the discussion and conclusions of the original paper.
