

Message from the Workshop Organizers

The 2nd International Workshop on Architecture, Design, Deployment and Management of Networks & Applications ADMNET 2015

On behalf of the organizers, we welcome all to the 2nd International Workshop on Architecture, Design, Deployment and Management of Networks & Applications (ADMNET), held in conjunction with COMPSAC, the IEEE Signature Conference on Computers, Software & Applications, July 1-5, 2015, in Taichung, Taiwan.

The ADMNET workshop series is focusing on the discussion of the advance of the state-of-the-art, research and development in the area of architecture, design, deployment and management of networks and Internet-based applications. This workshop is also a forum for designers, developers and administrators of the networks and applications. ADMNET covers a wide field of topics such as Network Architecture and Design, QoS, Scalability Solutions, Fairness, Optimality, and other aspects of Network Resource Sharing, Network Deployment, Management and Operation, Network Security, Network Applications and their Operation, Meta-Heuristics and Soft Computing Approaches for Networking Technologies, Network Metrics, Network Growth and Percolation Models, Modeling of Users and Network-Based Services, Digital Convergence, ITIL, User Policy and Service Level Agreements, Computer Ethics and Education.

ADMNET received 12 submissions, out of which 7 have been selected after a rigorous review to ensure a workshop presentation of highest quality. Our special thanks go to the plenary speaker of the workshop, Hiroki Kashiwazaki, Osaka University, Japan, who talks “or: How I Learned to Stop Worrying and Love Cloud Computing.” We also thank the Program Committee members, Shigehiro Ano, Akihiro Fujihara, Kaori Maeda, Daisuke Matsubara, Yasuo Musashi, Motonori Nakamura, Yutaka Nakamura, Koji Nishimura, Kazuya Tsukamoto, Masato Tsuru, Masato Uchida, Takashi Yamanoue and Kazuyuki Yoshida, for their help to ensure a workshop paper selection of highest quality. We want to thank COMPSAC 2015 organizers and the publisher, IEEE Computer Society Press, for their generous support and for ensuring the widespread dissemination of the presented research results. Last but not least, our thanks to all the authors. Without their contributions, and their valuation of ADMNET as a place to present their latest research achievements, ADMNET would not be possible.

Workshop Organizers

Nariyoshi Yamai

Tokyo University of Agriculture and Technology, Japan

Mario Köppen,

Kyushu Institute of Technology, Japan

Youngseok Lee

Chungnam National University, Korea
