

Welcome Messages from IEEE EUC 2020 Program Chairs

On behalf of the Program Committee of the 18th IEEE International Conference on Embedded and Ubiquitous Computing (IEEE EUC 2020), we would like to welcome you to join the conference in Guangzhou, China, December 29, 2020 - January 1, 2021.

As the embedded and ubiquitous computing is significantly transforming our society, the IEEE EUC 2020 Conference has become a forum for engineers and scientists in academia, industry, and government to address all challenges including technical, safety, social, and legal issues related to embedded and ubiquitous computing and to present and discuss their ideas, results, work-in-progress and experience on all aspects of embedded and ubiquitous computing. The

IEEE EUC 2020 Conference collected research papers on the related research issues from all around the world. This year we received 21 submissions. All submissions received at least three reviews from a high-quality review process. According to the review results, 8 papers are selected for oral presentation at the conference, giving an acceptance rate of 38.1%.

The success of EUC is due to the efforts of many people. We would like to use this opportunity to thank the program committee members and the referees for their time and efforts, and for their well-constructed reviews given such a compressed schedule. We would also like to express our gratitude to Prof. Guojun Wang, and Prof. Tian Wang, our General Chairs, and Prof. Minyi Guo and Prof. Laurance T. Yang, the Chairs of the Steering Committee, for their guidance and dedication to this conference. We are deeply in debt to their untiring efforts and assistance, without which it would be close to impossible to pull together this program at all.

Last but not the least, we would like to thank all the authors of submitted papers and the attendees for their contribution and participation. Without their strong support, we could not have a successful conference.

We sincerely hope that the conference will provide an excellent opportunity for you to learn from each other. Enjoy the conference, both technically and socially!

Program Chairs

Gregorio Martinez Perez, University of Murcia, Spain

Scott Fowler, Linkoping University, Sweden

Kuan-Ching Li, Providence University, Taiwan
