

# Message from the General Chairs

## EUC 2022

Welcome to the 20th IEEE international conference on embedded and ubiquitous computing (EUC 2022) organized by Huazhong University of Science and Technology, 28-30 October 2022, on behalf of the organizing committee of EUC 2022. Due to the Covid-19, the conference is organized in a hybrid mode, both physically and online.

EUC 2022 provides a forum for engineers and scientists in academia, industry, and government to address all challenges including technical, safety, social, and legal issues related to embedded and ubiquitous computing and to present and discuss their ideas, results, work-in-progress and experience on all aspects of embedded and ubiquitous computing.

We would like to express our special appreciation to the Program Chairs, Prof. Zehui Xiong, Prof. Jiawen Kang, and Prof. Raymond Choo, for their outstanding work and brilliant suggestion on organizing the technical program. We also would like to thank Publicity Chairs, Jiuzhen Zeng and Yongling Huang, for their great job in promoting this event broadly. We also would like to express our thanks to Keynote Speakers for offering insightful and enlightening talks.

We know that the success of the conference depends ultimately on the many people who have helped and endorsed us, therefore we would like to give our thanks to all the members of the Organizing Committee and Program Committee members and External Reviewers for their efforts and support. Finally, we would like to thank all the authors of the conference in which we hope that you will enjoy this wonderful event.
