Message from Program Chair

On behalf of the Technical Program Committee, welcome to the 13th IEEE/ACIS International Conference on Computer and Information Science (ICIS 2014), sponsored by IEEE and the International Association for Computers and Information Science (ACIS). This conference allows both researchers and practitioners to present and share their on-going ideas, experiences, and research results about all aspects of computer and information science.

The core of the technical program is a careful selection of interesting and novel research papers chosen for presentation at the conference that you will find in the proceedings. In response to the call for papers, we received submissions from 21 different countries/regions. All the papers were evaluated on the basis of their significance, novelty, and technical quality. After careful review, 89 papers were selected to be presented at the conference. These papers cover a wide range of topics including theory, methods, and applications.

We would like to express our appreciation to the following people: the conference Co-Chairs, Dr. Yan Han and Dr. Roger Lee; the Program Committee and secondary reviewers who contributed a great amount of their time and effort to evaluate the submissions to maintain high quality of the conference; the local arrangement Co-Chairs, Dr. Zongsheng Zhang and Dr Roger Lee; the finance chairs, Dr. Roger Lee and Jing Tang; the Publicity Co-Chairs; the session chairs who presided over the sessions; and all the authors, attendees, and presenters who really made this conference possible and successful.

We hope you enjoy the conference and enjoy your stay in Taiyuan, China!

IEEE/ACIS ICIS 2014 Program co-Chairs

Wenai Song,   North University of China, China
Simon Xu,   Algoma University, Canada
Lichao Chen,   Taiyuan University of Science and Technology, China
