

# Message from the GreenCom 2021 General Chairs and Program Chairs

## iThings-GreenCom-CPSCom-SmartData-Cybermatics 2021

It is our great pleasure to welcome you for the 17th IEEE International Conference on Green Computing and Communications (IEEE GreenCom 2021) held virtually on December 06-08, 2021. The IEEE GreenCom 2021 conference, sponsored by the IEEE Systems, the IEEE Computer Society, the IEEE Technical Committee on Scalable Computing (TCSC), Man, and Cybernetics Society (SMC), the Swinburne University of Technology, The Monash University and NSCLab, is well established in its 17th edition as a highly reputed conference in the field.

This edition consists of 5 regular papers selected from all the submissions. We wish to thank the authors of all the submitted papers for choosing the IEEE GreenCom 2021 as the venue to present their high-quality research. A high-quality review process was done by the highly qualified program committee members, and each paper was reviewed by at least two independent reviewers. We would like to express our gratitude to the Publicity Chair Leo Zhang (Deakin University, Australia) and Jiangshan Yu (Monash University, Australia) for assisting us during the conference organization and managing the program information. Moreover, we would like to thank the IEEE Computer Society's Conference Publishing Services (CPS) team to help paper publication. We also would like to extend our thanks to the program committee members and to additional reviewers that contributed their valuable time and expertise to provide professional reviews and very interesting feedback to authors in a stringent time schedule.

It is worth noting that the IEEE GreenCom-2021 is held as part of the 2021 IEEE Cybermatics Congress, together with other four conferences: The 4rd IEEE International Conference on Blockchain (Blockchain 2021); The 7th IEEE International Conference on Smart Data (SmartData 2021); The 14th IEEE International Conference on Cyber, Physical and Social Computing (CPSCom 2021); The 14th IEEE International Conference on Internet of Things (iThings 2021). You are welcome to explore the co-located conferences.

The conference is a highly stimulating event to foster interesting discussions as well as useful interaction among researchers and provides an excellent forum for exchanging and developing new ideas in the field of green computing and communications. We hope that all participants will find GreenCom interesting. Again, on behalf of the program committee, we thank you for sharing your research innovations at GreenCom2021, and for joining us during the period of December 06-08, 2021.

We believe that your participation in the IEEE GreenCom 2021 is a rewarding experience and look forward to seeing you in the future conferences.
