

New Associate Editor

IT IS with pleasure that I welcome Dr. Azita Emami to the editorial board of the JOURNAL OF SOLID-STATE CIRCUITS as a new Associate Editor. Dr. Emami is an expert on mixed-signal circuits, high-speed on-chip and chip-to-chip interconnects, and circuits for wearable and implantable devices. I look forward to working with her.

Azita Emami (M'05) received the B.S. degree from Sharif University of Technology, Tehran, Iran, in 1996, and the M.S. and Ph.D. degrees in electrical engineering from Stanford University, Stanford, CA, USA, in 1999 and 2004, respectively.

She joined the IBM T. J. Watson Research Center, Yorktown Heights, NY, USA, in 2004 as a research staff member in the Communication Technologies Department. From fall 2006 to summer 2007, she was an Assistant Professor of electrical engineering at Columbia University, New York, NY, USA. In 2007, she joined the California Institute of Technology (Caltech), Pasadena, CA, USA, where she is now a Professor of electrical engineering and medical engineering. She also serves as the Deputy Chair of the Division of Engineering and Applied Sciences at Caltech. Her current research interests include mixed-signal integrated circuits and systems, high-speed on-chip and chip-to-chip interconnects, system and circuit design solutions for highly scaled CMOS technologies, wearable and implantable devices for neural recording, stimulation, and efficient drug delivery.
