

MESSAGE FROM TECHNICAL PROGRAM CO-CHAIRS

It is our pleasure to welcome you to Brussels, Belgium for the 19th IEEE Workshop on Local and Metropolitan Area Networks. The workshop features invited papers in addition to regular track papers from both industry and academia.

We received 32 submissions for regular papers. After a careful review process, the technical program committee (TPC) selected 10 regular papers and 4 short papers for presentation in the workshop program, resulting in 31% and 44% acceptance rates, respectively. Each regular submission received at least three reviews.

We also received 8 invited paper submissions from experts performing research in areas related to the theme of this year's workshop: Seamless Services. We are very pleased to have the invited papers by Peng He, Thomas Mager, Paris Charalampou, Jean-Michel Dricot, Vanniarajan Chellappan, Dan Li, Gianluca Reali, Patrick Thiran and their co-authors. Each invited paper submission received at least two reviews.

We would like to thank the TPC for their thorough and timely reviews and their participation in the TPC teleconference, which greatly helped us in the paper selection process. We would like to take this opportunity to thank Byrav Ramamurthy, Kris Steenhaut, K. K. Ramakrishnan, and LANMAN Steering Committee for their valuable guidance throughout the entire process.

Finally, our thanks to you, the attendees of LANMAN 2013. We have tried our best in bringing together an excellent collection of recent research results. We encourage you to interact and participate in all the technical sessions. We look forward to your continued participation and support for LANMAN in future.

TPC Co-Chairs, LANMAN 2013

Murat Yuksel and **Rittwik Jana**
