

Errata

CODY, R.A., AND COFFMAN JR., E.G., "Record Allocation for Minimizing Expected Retrieval Costs on Drum-Like Storage Devices," *J. ACM* 23, 1 (Jan. 1976), 103–115.

Lewis Lowe has pointed out that Lemma 5 is in error. For the purposes of Theorem 4, it is sufficient to change the Lemma statement by replacing

"... *L*-assignment places . . ."

with

"... *L*-assignment and any optimal assignment place . . ."

The proof of Lemma 5 should be changed by deleting the first sentence, and the word "then" in the second sentence.

Two typographical errors that have also been pointed out are:

(i) In Figure 2 the *y*'s should be *z*'s and the *z*'s should be *y*'s.

(ii) Below eq. (14) the expression $(1 + 5\sqrt{13}y)/27$ should be changed to $(1 + 5\sqrt{13})y/27$.
