The Digital Library

Interactions is not only published on paper, but also online as part of ACM's Digital Library, an immense repository of ACM's publications. The Digital Library contains all of ACM's publications at least from 1991, but in some cases even earlier, such as the CHI conference back to 1985.

The first place to go is www.acm.org/dl for an overview, but for *interactions* it is www.acm.org/interactions. Following the link from there to "Back Issues" will take you to www.acm.org/pubs/contents/journals/interactions, where you will find all issues of *interactions* online (in PDF format) since our first issue.

It may be that you already have access to the Digital Library, or to *interactions* online. Some types of subscription give you access to the online versions, and some companies and educational institutions buy company-wide access to the whole Library. If you don't have a subscription to the Digital Library, you can still search and browse, and you can buy individual articles separately, or, of course, subscribe.

We aim to get each issue online on the first day of the cover month (for instance November 1st for the November-December issue). This means, especially for readers living outside the U.S. (where the paper version is posted from) that you can read *interactions* the day it comes out, without having to worry about the vagaries of the postal system.

A recent addition to the Digital Library is the possibility to find related articles, or to discuss an article, or to bind articles together on personal web pages. It will be interesting, from a user perspective, to see to what extent those facilities get used in the coming time, and how useful they turn out to be.

Steven Pemberton
interactions@acm.org

interactions

is a bimonthly publication of the ACM,
The Association for Computing

PUBLICATIONS OFFICE:

ACM, 1515 Broadway, New York, New York 10036, USA
+1-212-869-7440 FAX: +1-212-869-0481

Notice to Past Authors of ACM-Published Articles

ACM intends to create a complete electronic archive of all articles and/or other material previously published by ACM. If you have written a work that was previously published by ACM in any journal or conference proceedings prior to 1978, or any SIG Newsletter at any time, and you do NOT want this work to appear in the ACM Digital Library, please inform permissions@acm.org, stating the title of the work, the author(s), and where and when published.
