HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

Selecting Semi-Permanent Object Candidates in Dynamically-Typed Reflective Languages

N. Palumbo - P. Tesone - G. Polito - S. Ducasse

SEMI-PERMANENT OBJECTS

Context: generational GC

Find better graph partitions

- x Goals: minimize remembered entries, minimize total remembered object sizes
- x Moving Heuristics: structural heuristics, rarely mutated objects...
