There are typographical errors in the two formulas at the bottom of page 269. The test functions f_2 and f_4 should end with

$$+(1 - x_1)^2, +(1 - x_k)^2$$

(the minus signs should be pluses).

Reference [11] at the bottom of page 25 should be [10].

[An Efficient Derivative-Free Method for Solving Nonlinear Equations, by D. Le, *ACM Trans. Math. Softw.* 11, 3 (Sept. 1985), pp. 250–262.]

On line 5 of page 254, replace “step 4.5” by “step 5” (there is no step 4.5 in the algorithm).
